# TOOLS FOR PROACTIVE SUPPORT FOR SCHOOLS AFTER A SUICIDE

## Dr. Scott Poland

leading national and international youth suicide prevention and school crisis specialist

### Dr. Poland's Background

- 40 years of experience working on suicide prevention, intervention, and postvention in school communities
- currently a professor at (NSU) Nova Southeastern University College of Psychology in Fort Lauderdale, Florida
- has provided on-site assistance after suicides in numerous school districts across the nation
- authored and co-authored six books on school crisis and two more are in press
- Past President of the National Association of School Psychologists and a Past Director of the Prevention Division of the American Association of Suicidology
- has provided suicide prevention training to school personnel over 1000 times, in every state and many foreign countries

### Webinar Series Includes:

- a postvention checklist of strategies to identify students most at risk for a suicide attempt
- guidance for notifications, family support, funerals, memorials, appropriate postvention activities, and possible legal issues surrounding postvention support
- demonstrations of conducting faculty and parent meetings as well as processing sessions for students.
- review of support services for staff, as well as students
- examples of real postvention scenarios and strategies to counteract suicide contagion
- reporting guidelines for media coverage, including all local news services and the student newspaper
