Re: Certificates Issued on the Basis of Equivalency Directive

The purpose of this directive is to provide information to the educator certification section regarding what evidence of experience may be considered equivalent (92NAC21, 003.07) to content test score requirements found in 92NAC24 while ensuring certification applicants endorsement requirements are met pursuant to 92NAC21, section 005.01K. The following will be valid until 92NAC24 is revised.

- Applicants who otherwise qualify for an endorsement in Nebraska and taught in the earned endorsed area for two years or more in another state while holding a comparable and equivalent certificate may submit verification of such employment as an equivalent to passing the content test
- Applicants who submit evidence that they have completed two years of teaching experience in a Nebraska school system in the earned endorsement area after the completion of a Nebraska approved educator preparation program, and evidence that the individual has attempted the content test for the earned endorsed area unsuccessfully at least once, will be determined to have the equivalent of a passing content test score
