

## Amplify mCLASS DIBELS 8th Edition Threshold Levels

2024-2025

The bold scores in the table are the minimum values needed for a student to be considered “Progressing” toward future reading success. These values correspond to the DIBELS 8th Edition benchmark goals. Students who meet these goals are performing at benchmark levels and are at minimal risk and on track for meeting grade-level proficiency goals. The scores in parentheses correspond to the DIBELS 8th Edition cut points for risk. Students with scores below this cut point are at-risk for reading difficulty.

Amplify recommends that students with scores between the benchmark goal (bold score) and cut point for risk (score in parentheses) be provided strategic instructional support. Students with scores below the cut point for risk need intensive instructional support.
