School Safety - Security - Operational Equipment
Budgeted in Object Code 600

Equipment is any instrument, machine, apparatus or set of articles that meets ALL of the following:

- a. Under normal conditions of use can be expected to last longer than a year,
- b. Does not lose its identity through fabrication or incorporation into a different or more complex unit,
- c. Is non-expendable (more feasible to repair the item than to replace),
- d. Retains its appearance and character through use,
- e. Is of significant value and, may be,
- f. Small and attractive.

Operational equipment items costing at least \$1,500 per unit must be inventoried although it is prudent to inventory any equipment that meets the **All operational equipment costing less than \$5,000 per unit must be budgeted in Object Code 600. (DAS) Capital Outlay regulations. If item meets the Capital Outlay requirements, please work with your CPA to ensure the proper useful life is applied as an option to capitalize items under \$5,000 if they so desire.

Expected useful life of two or more years and the total costs for the item should be \$5,000 or greater. Costs incurred in preparing the item for service and depreciation lives are utilized.

For existing fixed asset placed in service, these new costs should be capitalized only when the useful life of the existing asset has been extended. Never capitalize the existing fixed asset. THIS IS IMPORTANT FOR DEPRECIATION PURPOSES. If the new costs are related to maintenance or do not increase the life of the asset, they should generally be expensed to the appropriate expense object code. If a LEA is unsure if their project should be capitalized, they should contact NDE.
