

2024 Nebraska Early Childhood OSEP Reporting/ GOLD Technical Assistance Workshops

Presenters: Dr. Kerry Miller, UNMC, and Ginny Howard, NDE, Office of Special Education

Annual OSEP child outcomes reporting is quickly approaching. Join us, as we work through steps to ensure your district's data is included. We will show **GOLD administrators** the steps and allow time for administrators to:

1. Ensure all children receiving IDEA services are included,
2. Ensure all entry and exit data is complete,
3. Troubleshoot instances of missing data,
4. Generate OSEP reports for your district.

What to bring: Administrators will need 1) laptop, 2) GOLD username and password, and 3) access to district rosters of children receiving services
