SCHOOL DISTRICT CENSUS REPORT INSTRUCTIONS

The School District Census Report (NDE 02-023) is required for all public-school districts by Nebraska State Statutes 79-524 R.R.S., 79-528 R.R.S., and 79-578 R.R.S. The School District Census Report provides the Department of Education with a count of children ages 5 - 18 that reside in a school district **as of June 30**. This information is used in the calculation of state and county funding sources distributed to school districts, such as State Apportionment and county fines/license fees.

Please Note: Inaccurate information could adversely affect the reimbursement amount the district receives. If there is a significant change from year to year, please be sure to double check your numbers for accuracy and reasonableness.

The School District/System Census Report in the NDE Portal will be open by July 1. Census data must be submitted no later than July 10. The Data Audit Window for Census data (submitted by due date) will open from July 11 to July 20 for corrections.

Submission of the Census Report is through the NDE Portal – hard copies not accepted.
