1 What is the Purpose of the LCNA Toolkit?

The purpose of the Nebraska Department of Education (NDE) Migrant Education Program (MEP) *Local Comprehensive Needs Assessment (LCNA) Toolkit* is to provide local/regional program staff with guidance and resources to assess the needs of migratory children and youth as required by federal regulations (see *Section 2*). This assessment takes into account what has been done in the past and identifies continuing needs and priorities in order to propose successful solutions that can be incorporated to move the MEP closer to achieving federal and state performance goals.

The statewide Comprehensive Needs Assessment (CNA) and LCNA is part of the MEP Continuous Improvement Cycle, as depicted in the figure to the right (U.S. Department of Education, Office of Migrant Education, 2018). In this cycle, each step in developing a program: assessing needs, identifying strategies, implementing them, and evaluating the results, builds on the previous activity and informs the subsequent activity. The CNA identifies needs statewide (see *Appendix B for a summary of the statewide needs identified in the most recent Nebraska CNA [2023-24]*). The LCNA provides an opportunity to review local data on migratory students, identify needs, and propose evidence-based solutions to meet local needs if not already addressed by the strategies or suggested ways to implement the strategies in the MEP Service Delivery Plan (SDP).

This *Toolkit* provides a blueprint for local MEP staff to create an LCNA for their project. It helps guide staff in making decisions about which students to target for particular services and provides advice about how to conduct the LCNA; how to gather, collect, and analyze needs assessment data; and how to use the results to plan services. Key to the LCNA process is making the connection between the LCNA results and the local delivery of MEP services. LCNA results can be used to help inform the LCNA Strategy Implementation Plan [Tool 3-1] and the LCNA Action Plan to Address Other Needs [Tool 3-2] (see *Appendix A*) as well as guide local MEP decisionmakers to develop services, materials, and resources to support migratory students' academic success through the delivery of instructional and support services. LCNA results should serve as the foundation for all decisions about services, resource allocation, and staff and parent development.

The LCNA process presented in this *Toolkit* **can be adapted** to the resources and organizational structures in specific local settings. The use of this *Toolkit* and the development of the LCNA should provide the opportunity for the regions/projects to clearly see where other funding sources are already in place to meet the unique needs of migratory students and where they need to use MEP funds to supplement existing services and/or provide additional services.

Through local education agencies (LEAs), the MEP helps migratory children and youth by providing **supplementary services** beyond those provided in schools. MEP funds are considered the “*funds of last resort*” and should never be used to provide services to all students. Title I-C funds should only be used to provide supplementary services for eligible migratory students. Funds cannot be used to supplant programs or services provided to all students (migratory students included) funded by state, district, and other federal funds.

2 What are the Legal Requirements for CNA/LCNA?

Three main documents inform and guide MEPs and their service delivery.

- Elementary and Secondary Education Act (ESEA), as reauthorized by the Every Student Succeeds Act (ESSA) of 2015, Title I, Part C, Sections 1304(b) and 1306(a) *Program information and comprehensive plan*.
- 34 Code of Federal Regulations (CFR), 200.83, *Responsibilities of SEAs to implement projects through a comprehensive needs assessment and a comprehensive state plan for service delivery* (<https://www.ecfr.gov/current/title-34/subtitle-B/chapter-II/part-200/subpart-C/section-200.83>)
- *Non-Regulatory Guidance (NRG): Education of Migratory Children under Title I, Part C of the Elementary and Secondary Education Act of 1965* (specifically Chapter IV – CNA and SDP) (<https://results-assets.s3.amazonaws.com/legislation/MEP%20Non%20Regulatory%20Guidance%20March%202017.docx>)

State MEPs are required to ensure that the state and its local operating agencies (LOAs) identify and address the unique educational needs of migratory children, including preschool migratory children and migratory children who have dropped out of school (Section 1304(b)(1) of ESSA).

The NRG (Chapter IV) states the following:

- The primary purpose of the CNA is to guide the *overall design* of the MEP on a statewide basis. It is not sufficient to simply document the need for the program. Rather, SEAs and LOAs must identify the special educational needs of migratory children and determine the specific services that will help them achieve the state’s measurable outcomes and performance targets.
- Because there are never sufficient resources to meet all the needs of migratory children, the CNA helps SEAs and LOAs prioritize those needs.
- LOAs conduct individual needs assessments to: (1) determine the needs of migratory students and how those needs relate to the priorities established by the state; (2) design local services; and (3) select students for the receipt of those services.
- While the SEA and LOAs must jointly ensure that needs assessment procedures at the LOA level are aligned with those at the state level, LOAs are able to narrow their needs assessments because local staff have access to more precise information than is available at the SEA level. This enables the LOA to identify such critical elements as the specific needs of children by grade levels, academic areas in which the project should focus, instructional settings, instructional materials, staffing, and teaching techniques.

Question A7 in the NRG (Chapter IV) states: “*Must SEAs and LOAs identify the special educational needs of all eligible migratory children?*” Following are the responses.

- Yes. Sections 1304(b)(1) and 1306(a)(1) of the statute require the SEA to ensure that the state and its LOAs identify and address the special educational needs of migratory children. Furthermore, every SEA must develop and update a written comprehensive state service delivery plan that includes an identification and assessment of the special educational needs of migratory children, as described in the previous question. (See 34 CFR 200.83.)
- SEAs must conduct a CNA in order to develop a comprehensive state plan for service delivery that addresses the special educational needs of migratory children. LOAs must conduct a needs

assessment in order to provide services that will meet the identified needs in accordance with the comprehensive state plan for service delivery.

In addition, program regulations in 34 CFR 200.83 state that a needs assessment (which is to be included in a state comprehensive plan) must identify and assess *“the unique educational needs of migratory children that result from the children’s migratory lifestyle”* and other needs that must be met in order for migratory children to participate effectively in school (a)(2)(i, ii).

States must conduct a CNA in order to develop a comprehensive state SDP that addresses the special educational needs of migratory children. SEAs and LOAs are required to design and operate their programs based on a current CNA (34 CFR 200.83). Because the SDP is the basis for all uses of MEP funds in the state, the SEA and LOAs must jointly ensure that needs assessment procedures at the local level align with those at the state level. They also must jointly ensure that local MEPs focus on the unmet needs of migratory children with priority for services (PFS) before serving other migratory children.

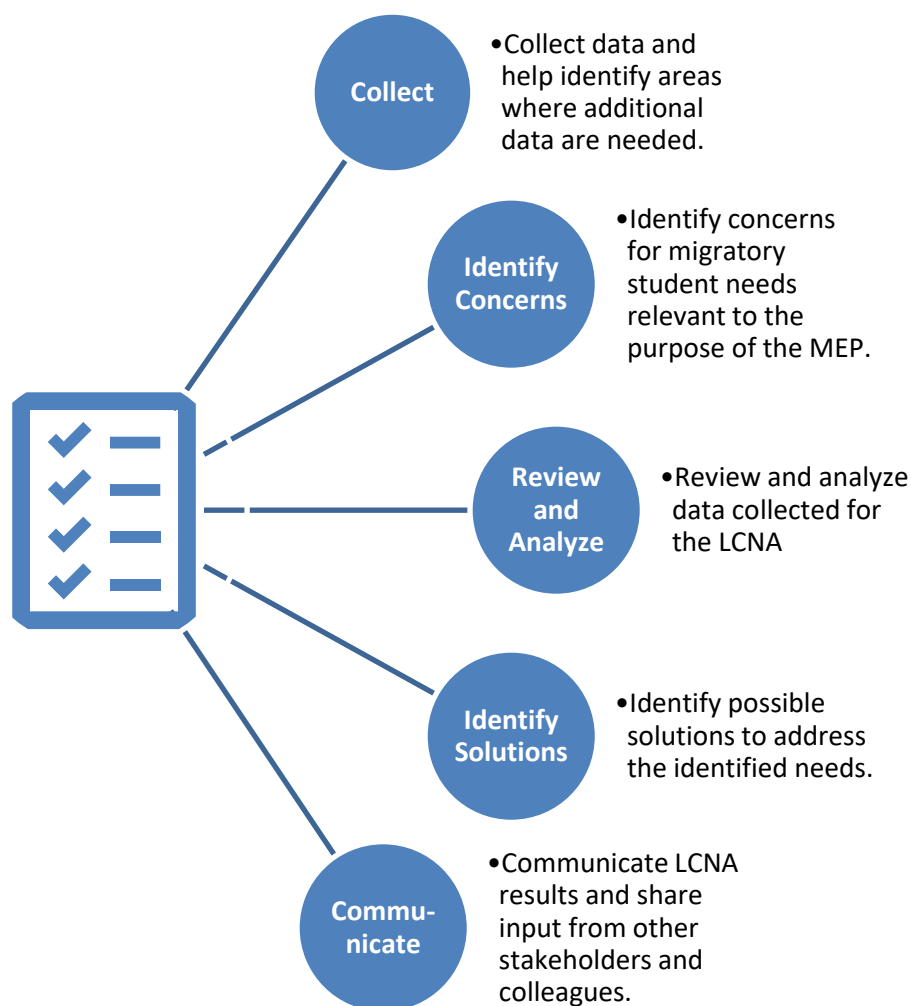

Guidance further states that local MEPs should use the best available data to design a program. The data should reflect either: (1) the migratory children who the agency served most recently, or (2) particularly for newly established MEPs, the migratory children who are likely to be served. Student demographic and assessment data are key data sources that agencies should use to construct a statewide or local profile of migratory children as compared to non-migratory children and/or other appropriate comparison groups. These data are particularly useful if they are disaggregated by PFS and grade level. Other data sources include assessment data from other school districts and support services needed by migratory students.

3 Who Participates in the LCNA and When is it Conducted?

LOAs must conduct a LCNA that assesses the needs of local migratory children and youth in accordance with the identified needs of the state CNA. The LCNA must occur prior to funding to help the regions/projects determine migratory student needs and develop a plan for delivering appropriate services based on the unique needs of migratory students. This information is summarized in the MEP application for funds.

Information on the steps taken in conducting the LCNA, and tools needed to conduct an LCNA are found in this *Toolkit*. LCNAs take into account migratory student needs at the regional/project level. The LCNA is an annual data gathering activity that involves district/school and MEP staff in the development, as well as migratory parents and students, community members, and other stakeholders.

A Local Needs Assessment Committee (LNAC) ensures that the perspectives of the region/project are included throughout the process. The LNAC can be as small as 3-4 people and as large as 8-10 people, depending on the size of the region/project. The LNAC should be led by the MEP director/coordinator, or his/her designee. LNAC members could include MEP staff (recruiters, data specialists, liaisons, service providers), instructional staff, migratory parents and students, and staff from collaborating agencies as appropriate. Following is a graphic display of the role of the LNAC.

A general timeline will help the LNAC reflect on the activities of the LCNA, who is responsible for accomplishing these tasks, and how long each task will take to complete. The sample timeline below provides general information on key LCNA tasks and the season in which they are typically conducted. A timeline template for use in planning is included in this *Toolkit* [Tool 1-1].

Sample LCNA Timeline		
Fall	Spring	Summer
<ul style="list-style-type: none"> ✓ Form an LNAC ✓ Distribute LCNA surveys, conduct focus groups ✓ Meet to determine primary concerns and needs, and review existing LCNA data ✓ Collect and tally/analyze LCNA surveys, focus group results, student profile data ✓ Meet to review LCNA survey/focus group results and the MEP Student Profile ✓ Submit the MEP application (with LCNA results) to NDE 	<ul style="list-style-type: none"> ✓ Meet to complete a local strategy implementation plan and action plan (if needed) ✓ Solicit feedback on the plans and finalize ✓ Use LCNA results to inform services provided to migratory students and families, and the MEP application 	<ul style="list-style-type: none"> ✓ Provide summer services based on needs identified in the LCNA ✓ Meet to plan school year services based on the local strategy implementation and action plans

4 What are the Steps in Conducting the LCNA?

Step 1 – Conduct Preliminary Work and Gather Data

- ☐ Identify members of the LNAC, to include the SEA regional liaison, *(3-10 members, depending on the size of the project)* using **Tool 1-1**.
- ☐ Create an LCNA calendar using the template on **Tool 1-1** that contains meeting dates, important timelines, and activities.
- ☐ Convene the LNAC to determine when surveys will be administered/focus groups conducted, identify person(s) responsible for assisting with data collection and analysis, and brainstorm primary concerns about migratory students using **Tool 1-2**.
- ☐ Disseminate paper copies and/or links to online versions of the Family Needs Assessment Survey [**Tool 1-3**], Staff Needs Assessment Survey [**Tool 1-4**], and Student (grades 9-12)/Out-of-School Youth (OSY) Needs Assessment Survey [**Tool 1-5**].
- ☐ Conduct focus groups of students, staff, and/or parents to further inform the LCNA.
- ☐ Collect data from MIS2000 and other sources (e.g., OSY Profile, NDE website, district data) to include in the local MEP Student Profile.

Step 2 – Analyze, Summarize, and Review Needs Assessment Data

- ☐ Summarize survey results using **Tools 2-2, 2-3, 2-4A, and 2-4B** and identify priority need areas.
- ☐ Summarize and determine trends from focus group responses.
- ☐ Prepare a data profile of migratory students [**Tool 2-1**] using most recent data.
- ☐ Convene the LNAC to review survey/focus group results and the MEP Student Profile.

Step 3 – Make Decisions

- ☐ Convene the LNAC to review and determine the connection between priority needs and the Nebraska MEP CNA/SDP and possible evidence-based solutions.
- ☐ **Action planning!** Use the LCNA Strategy Implementation Plan [**Tool 3-1**] to inform services provided to migratory students and their families aligned with the strategies in the Nebraska MEP SDP.
- ☐ **Action planning!** Use the LCNA Action Plan to Address Other Needs [**Tool 3-2**] to identify possible solutions for key needs not addressed in the current Nebraska MEP CNA and SDP.

**Action Planning: Use the results of the LCNA to
DESIGN and IMPLEMENT services to meet the
needs of your migratory students!**

5 What Tools are Needed to Conduct the LCNA?

Tools are needed for all steps of the LCNA: the preliminary work and data gathering; analyzing, summarizing and reviewing needs assessment data; and making data-driven decisions about appropriate programs and services to meet the identified needs of migratory students at the local level that are aligned with the Nebraska MEP CNA/SDP. Following is a list of the tools found in Appendix A, a description of each tool, and instructions for completing the tools.

Tools for Step 1 – Conduct Preliminary Work and Gather Data

Tool	Description	Instructions
Tool 1-1: LCNA Planning Tool	Tool to assist with planning the LCNA. Contains a chart to document LNAC members and a template for creating an LCNA timeline.	Document LNAC member names and roles in the MEP and create an annual timeline for LCNA tasks, activities, and meetings.
Tool 1-2: LCNA Concerns Brainstorming Tool	Tool to document primary concerns of migratory student needs prior to reviewing data collected for the LCNA.	Use during the first LNAC meeting to brainstorm LNAC members' primary concerns about migratory student needs.
Tool 1-3: LCNA MEP Family Needs Assessment Survey (English and Spanish)	Survey to determine parent and family member perceptions of child and parent/family needs. <i>Note: This is not intended to be an individual needs assessment survey. The survey should allow for anonymous feedback to determine project-based/regional trends and needs.</i>	Distribute in the fall to a sample of parents and family members (<i>10% of eligible families or 15 surveys, whichever is greater</i>). Collect surveys/responses and tally results using LCNA Tool 2-2.
Tool 1-4: LCNA MEP Staff Needs Assessment Survey	Survey to determine MEP and non-MEP staff perceptions of migratory student and parent/family needs, as well as staff professional development needs.	Distribute in the fall to MEP and non-MEP staff knowledgeable about migratory student needs. Collect surveys/responses and tally results using LCNA Tool 2-3.
Tool 1-5: LCNA MEP Student (Grades 9-12)/OSY Needs Assessment Survey (English and Spanish)	Survey to determine migratory student (grades 9-12) and OSY perceptions of their needs. <i>Note: This is not intended to be an individual needs assessment survey. The survey should allow for anonymous feedback to determine project-based/regional trends and needs.</i>	Distribute in the fall to a sample of migratory students in grades 9-12 and OSY (<i>10% of eligible students/OSY or 15 surveys, whichever is greater</i>). Collect surveys/responses and tally results using LCNA Tool 2-4A [students] and Tool 2-4B [OSY].

Tools for Step 2 – Analyze, Summarize, and Review Needs Assessment Data

Tool	Description	Instructions
Tool 2-1: LCNA MEP Student Profile	Local profile of migratory student demographics, MEP services, graduation and dropout rates, and progress on state assessments.	Utilize MIS2000 and other data sources to report data on migratory students for the most recent performance period (1-year period). Additional data elements can be added by the projects/regions.
Tool 2-2: LCNA Family Needs Assessment Survey Tally Sheet	Tool to tally responses from Family Needs Assessment Surveys.*	Tally parent/family responses on the Family Needs Assessment Survey indicating needs identified, determine priority need areas, and list comments/follow-up as needed.
Tool 2-3: LCNA Staff Needs Assessment Survey Tally Sheet	Tool to tally the responses from Staff Needs Assessment Surveys*	Tally staff responses on the Staff Needs Assessment Survey indicating needs identified, priority need areas, and list comments/follow-up as needed.
Tool 2-4A: LCNA Student (Grades 9-12) Needs Assessment Survey Tally Sheet	Tool to tally the responses from Student (grades 9-12)/OSY Needs Assessment Surveys.*	Tally student responses on the Student/OSY Needs Assessment Survey indicating needs identified, priority need areas, and list comments/follow-up as needed.
Tool 2-4B: LCNA OSY Needs Assessment Survey Tally Sheet	Tool to tally the responses from Student (grades 9-12)/OSY Needs Assessment Surveys.*	Tally OSY responses on the Student/OSY Needs Assessment Survey indicating needs identified, priority need areas, and list comments/follow-up as needed.

**It is recommended that the LCNA surveys be completed electronically (e.g., SurveyMonkey) for ease of completion and to reduce the time needed for tallying and recording results.*

Tools for Step 3 – Make Decisions

Tool	Description	Instructions
Tool 3-1: LCNA Strategy Implementation Plan	Local plan for implementing the strategies in the Nebraska MEP SDP based <u>specifically</u> on the needs identified through the LCNA.	During LCNA meetings, the LNAC identifies implementation activities for the strategies based specifically on the needs identified through the LCNA, resources needed to implement the activities, timelines, person(s) responsible, and priority levels for the project/region.
Tool 3-2: LCNA Action Plan to Address Other Needs	Local action plan to identify possible solutions to priority needs identified through the LCNA that are not identified in the state CNA, and therefore, are not addressed in the strategies in the SDP (if applicable).	During LCNA meetings, the LNAC identifies priority needs (identified through the LCNA) that are not identified in the state CNA, and therefore, are not addressed in the strategies in the SDP (if applicable), possible solutions to the needs, resources needed to implement the solutions, timeline for implementation, person(s) responsible, and priority levels for the project/region.

6 Why Conduct LCNA Focus Groups?

The LCNA Family Needs Assessment Survey [Tool 1-3], Staff Needs Assessment Survey [Tool 1-4], and Student (Grades 9-12)/OSY Needs Assessment Survey [Tool 1-5] assist LEAs in identifying the unique needs of migratory children and youth to be addressed during the LCNA process; however, projects/regions may **want or need** to delve into needs beyond the surveys. This can be done through focus groups with parents/family members, staff, and students/OSY. Best practices indicate conducting focus groups when parents/family members, staff, and/or students/OSY are already gathered for meetings. These discussions can be formal or informal and could occur during the following events.

- Back-to-school events
- Parent Advisory Committee (PAC) meetings
- Parent training events
- Staff meetings
- State conference sessions
- Student leadership events

This section provides guidance on conducting focus groups to further explore the needs of each population to better understand their needs.

Guidance about Facilitating Focus Groups

A focus group is a small group of people (usually 4-6) who provide feedback on certain topics to help projects/regions improve services. Focus group members are invited to attend small roundtable discussions (lasting approximately 40-60 minutes) to provide feedback on specific questions. Discussions are led by a facilitator who has the responsibility of recording responses/trends to be reviewed during the LCNA process. The following suggestions are provided to assist facilitators in leading needs assessment focus groups.

Before the discussion begins:

- Welcome everyone, introduce yourself and ask participant(s) their names. If you do not know the participants, provide name tags.
- When interviewing, spend some time to establish rapport. Ask parents about their children and their children's school. Ask staff to describe the program in a single word or phrase and note their comments.
- Listen closely to the answers as they will help you frame your follow-up questions later during the discussion.
- Once everyone arrives, explain the process:
 - Let everyone know that you will be summarizing the responses and including them in a report to the LEA.
 - Explain that you will not be using people's names—rather, you will be combining the information and summarizing it together with that of all those being interviewed.
 - If someone has not been assigned as the note taker, ask someone to take notes on the discussion. The facilitator may take notes as well, but dedicating this task to someone allows the facilitator to keep the flow of discussion going.

During the discussion:

- Use probes to deepen the discussion if people do not volunteer information. You do not have to ask all of the probes.

- When summarizing responses, simply write down what is said.
- Allow everyone in the group to have a voice. If someone is dominating the discussion, you can try asking those who have been quiet if they agree or disagree and why. However, avoid putting anyone on the spot by asking a particular question just for one person.
- One way to get more in-depth responses without leading is to restate a comment with the inflection of a question. Also, summarize comments and ask if you have captured their thoughts correctly.

At the end:

- Thank everyone for their participation.
- The facilitator should read any notes and make appropriate corrections.
- Turn in all notes from focus groups to the lead person at the LEA.

A facilitator may lead focus groups using a variety of ways to make the discussion engaging and interactive including the following.

- Individual questions can be asked and participants take turns responding.
- Participants can engage in a mind mapping activity whereby the questions are provided at the center of a mind map and participants work in groups to map out responses.
- Participants are asked questions and respond using index cards that are submitted to the facilitator. The facilitator then reads the responses and allows time for the group to respond/debrief.

Sample Needs Assessment Focus Group Questions

Following are sample questions that can be selected for needs assessment focus groups.

Sample Questions for Parents/Family Members
<p>What have you observed to be your children's greatest learning needs? <i>Probe: How do learning needs differ by age/grade (e.g., birth to age five, elementary, middle school, high school, out-of-school youth [OSY])?</i></p>
<p>In what subjects do your children need the most help? <i>Probe: Do subjects differ by age/grade?</i></p>
<p>What services can the MEP provide to your children to support their learning/academic needs? <i>Probe: Do services needed differ by age/grade? Are your children receiving services for which they are eligible?</i></p>
<p>What are some things that get in the way of your child's success in school? <i>Probe: Social-emotional issues, lack of eyeglasses, transportation to/from programming, resources/supplies needed to participate, etc.</i></p>
<p>Is there anything that the MEP can provide to help your children do better in school? <i>Probe: School supplies, transportation, health/dental/vision services, etc.</i></p>
<p>As a parent, what are your needs for supporting your children's schoolwork/learning? <i>Probe: Do you have what you need to support your child's learning at home? Do you require additional skills to help your children with reading/math? Do you know who to talk to on behalf of your child to ensure their needs are addressed?</i></p>
<p>What services can the MEP provide you, as a parent, to support your needs? <i>Probe: Parent training, classes to improve parent skills, parent/child activities, resources, etc.</i></p>

Sample Questions for MEP Staff

What have you observed to be migratory students' greatest learning needs?

Probe: How do learning needs differ by age/grade (e.g., birth to age five, elementary, middle school, high school, out-of-school youth [OSY])?

With what subjects do migratory students need the most help?

Probe: Do subjects differ by age/grade?

What services can the MEP provide to migratory students to support their learning/academic needs?

Probe: Do services needed differ by age/grade? Are migratory students receiving services for which they are eligible (MEP and non-MEP funded)?

What challenges or barriers get in the way of migratory students' success in school?

Probe: Do barriers/challenges differ by age/grade?

What support services would most help migratory students do better in school?

Probe: School supplies, transportation, health/dental/vision services, etc.

What professional development needs do you have to support migratory students and youth?

Probe: Are there specific topics you would recommend? Are you in need of information on the MEP or the impact of mobility on migratory children and youth? Do you have the skills needed to support migratory student learning?

Sample Questions for Migratory Students in Grades 9-12 and Out-of-School Youth (OSY)

What do you want to learn?

Probe: Content area skills, information to complete high school courses, life skills, a high school equivalency diploma, etc.

In what subjects do you need the most help?

Probe: Specific content areas, specific skills, specific courses

What services can the MEP provide to support your learning/academic needs?

Probe: After-school tutoring, summer school, mentoring, individualized support, etc.

What challenges or barriers get in the way of your success in school?

Probe: Social-emotional issues, health issues, lack of transportation, lack of resources/supplies to participate, etc.

What would help you do better in school?

Probe: School supplies, transportation, technology, health/dental/vision services, etc.

TOOL 3-1 LCNA STRATEGY IMPLEMENTATION PLAN

The LCNA Strategy Implementation Plan helps the projects/regions identify how to implement the strategies in the Nebraska Migrant Education Program (MEP) Service Delivery Plan (SDP) to address migratory student needs identified during the LCNA process. To complete the Implementation Plan, the LNAC identifies activities to address the needs identified during the LCNA, resources needed to implement the activities, timelines for implementing the activities, and person(s) responsible for implementing the activities. Depending on the availability of staff and other resources needed to provide services, as well as the availability of resources from other programs, check one of the priority levels (low, medium, or high) to assist with prioritizing implementation of the activities. **Note: Ideas for strategy implementation from the 2022 SDP can be found in Appendix C.**

School Readiness Strategies In the Nebraska SDP	Implementation Activities (Based on the needs identified in the LCNA)	Resources Needed	Timeline	Person(s) Responsible	Priority Level		
					L	M	H
Strategy 1.1a: Coordinate and/or provide instructional services for migratory children ages 3-5 (not in kindergarten) to increase their school readiness skills (e.g., preschool programs, home-/center-based services, summer programming).							
Strategy 1.1b: Provide professional learning to prepare staff to address the unique educational needs of migratory children ages 3-5 (not in kindergarten) using evidence-based strategies for instruction and support services.							
Strategy 1.2: Coordinate and/or provide support services to assist families with identifying and overcoming barriers so that migratory preschool-aged children have access to school readiness opportunities.							
Strategy 1.3: Coordinate and/or provide school readiness strategies to enhance migratory families' capacity to support and advocate for their child's school readiness skills.							

English Language Arts and Mathematics Strategies In the Nebraska SDP	Implementation Activities (Based on the needs identified in the LCNA)	Resources Needed	Timeline	Person(s) Responsible	Priority Level		
					L	M	H
Strategy 2.1a: Coordinate and/or provide targeted, evidence-based supplemental ELA and math support to increase academic achievement.							
Strategy 2.1b: Provide access to targeted, high-quality professional learning to prepare staff to address the unique educational needs of migratory students using evidence-based strategies for ELA and math instruction.							
Strategy 2.2: Coordinate and/or provide migratory students with appropriate needs-based support services to increase achievement in ELA and math.							
Strategy 2.3: Coordinate/provide and/or refer families to resources and/or opportunities that help families support academic development in ELA and math.							

High School Graduation Strategies In the Nebraska SDP	Implementation Activities (Based on the needs identified in the LCNA)	Resources Needed	Timeline	Person(s) Responsible	Priority Level		
					L	M	H
Strategy 3.1a: Coordinate and/or provide secondary migratory students (grades 9-12) with evidence-based supplemental instructional services to support their achievement of graduation, college, career, and/or life readiness goals and skills.							
Strategy 3.1b: Provide professional learning to MEP staff, school staff, and partner stakeholders to enhance their knowledge of evidence-based strategies, promising practices, and culturally relevant instruction to increase secondary migratory students (grades 9-12) achievement of graduation; GED/high school equivalency; college, career, and/or life readiness goals.							
Strategy 3.2: Coordinate and/or provide appropriate needs-based support services to secondary migratory students (grades 9-12) to eliminate barriers to accomplishing graduation, college, career, and/or life readiness goals and skills.							
Strategy 3.3: Coordinate and/or provide needs-based educational services to migratory parents/families of secondary migratory students (grades 9-12) to enhance their capacity to support their child's achievement of graduation and college, career, and/or life readiness goals and skills.							

Services to OSY Strategies in the Nebraska SDP	Implementation Activities (Based on the needs identified in the LCNA)	Resources Needed	Timeline	Person(s) Responsible	Priority Level		
					L	M	H
Strategy 4.1a: Coordinate and/or provide migratory OSY with evidence-based supplemental instructional services to support their achievement of graduation, high school equivalency (GED), college/career and/or life goals and skills.							
Strategy 4.1b: Provide professional learning to MEP staff, school staff, and partner stakeholders to enhance their knowledge of evidence-based strategies, promising practices, and culturally relevant instruction to increase OSY achievement of graduation; GED/high school equivalency; college, career, and/or life readiness goals.							
Strategy 4.2: Coordinate and/or provide appropriate needs-based support services to migratory OSY to eliminate barriers to school re-engagement and support their achievement of graduation, high school equivalency (GED), college/career and/or life goals and skills.							
Strategy 4.3: Coordinate and/or provide needs-based educational services to migratory parents/ families of migratory OSY to enhance their capacity to support their child's achievement of graduation, high school equivalency (GED), college/ career and/or life goals and skills.							

Tool 3-2 LCNA Action Plan to Address Other Needs

If, during the LCNA process, migratory student needs were identified that are not identified in the Nebraska MEP Comprehensive Needs Assessment (CNA), and therefore, are not addressed in the strategies in the Nebraska MEP Service Delivery Plan (SDP) [Tool 3-1: LCNA Strategy Implementation Plan], use this Action Plan to identify the priority needs, possible solutions to address the needs, resources needed to implement the solutions, etc. Depending on the availability of staff and other resources needed to provide services, as well as the availability of resources from other programs, check one of the priority levels (low, medium, or high) to assist with prioritizing implementation of the solutions.

LCNA Toolkit - Appendix B

Statewide Needs Identified in the 2023-24 Nebraska MEP CNA

A state Migrant Education Program (MEP) Comprehensive Needs Assessment (CNA) is a systematic assessment and decision-making process that progresses through a defined series of phases to determine needs, examine their nature and causes, and set priorities for future action. The Nebraska MEP Needs Assessment Committee (NAC) followed a systematic 5-step process suggested by the Office of Migrant Education at the U.S. Department of Education that is illustrated below. This model was modified to fit the specific needs of the Nebraska CNA process which included both the assessment of needs and the identification of potential solutions at three levels:

- Level 1: *Service Receivers* (migratory students and parents)
- Level 2: *Service Providers and Policymakers* (State and local MEP staff)
- Level 3: *Resources* (the system that facilitates or impedes the efforts of the MEP)

The five basic steps of the CNA process are described below.

Step 1—Conduct Preliminary Work

The NDE MEP Team and META Associates:

- reviewed the requirements of the CNA;
- developed a management plan to set the project’s general timeline and identify the teams needed for accomplishing each phase;
- established a NAC reflecting a broad representation of perspectives to provide thoughtful guidance to the process; and
- developed a profile that provided baseline data on the State’s migratory child population.

Step 2—Explore What Is

META guided the NAC to:

- review existing data and program evaluation reports;
- identify concerns about migratory children and families; and
- develop Need Indicators and suggests areas for data collection that confirmed or challenged their underlying assumptions about the identified concerns.

Step 3—Gather and Analyze Data

- The NDE MEP Team and META oversaw data collection to measure the identified needs and gaps between migratory children and their non-migratory peers.
- META organized and analyzed the data and shared the data in a reader-friendly format with the NAC.
- META guided the NAC to create a set of need statements and prioritize them.

Step 4—Make Decisions

META guided the NAC to:

- review the prioritized need statements and propose evidence-based solutions for closing the educational gaps that migratory children face in school; and
- prioritize the solutions.

Step 5—Transition to SDP Development

- META wrote the CNA report that documents the CNA process and findings.
- META and the NDE MEP Team shared the CNA with stakeholders and administrators at the state and local levels.
- The NDE MEP team/META used the CNA as the basis for initiating the SDP planning process during 2021-22.

The CNA is used as a tool for decision-making to impact the operation of the MEP at all levels. It allows program administrators and program planners to target services to meet the needs of migratory children. The CNA process involves broad-based representation (e.g., state MEP staff, parents, community members, other stakeholders) in a participatory process to ensure that the unique needs of migratory students are identified. It provides quantitative and qualitative data to guide programming and policy decisions.

Upon completion of the statewide CNA process, a summary is included in a final CNA report that forms an action plan with educational solutions that inform the MEP SDP. The needs identified in the most recent Nebraska MEP CNA (2023-24) can be found on the following pages. Needs are organized by the three goal areas of (1) school readiness, (2) English Language Arts (ELA) and mathematics, and (3) high school graduation/services to out-of-school youth. **It should be noted that during the subsequent SDP process, the third goal area was divided into two separate goal areas: High School Graduation and Services to OSY.**

Goal Area 1: School Readiness

Concern Statement	Data Source	Need Indicator/ Need Statement	Prioritized Solutions for the SDP
1-1) We are concerned that migratory preschoolers, especially ELs, do not have access to free, quality early childhood programs (i.e., distance/ transportation, long waitlist, availability, schedules) and therefore do not have the school readiness skills to be prepared for kindergarten and beyond.	NAC Expert Committee 2022-23 MIS2000	Indicators - The experts on the NAC report that migratory children ages 3-5 do not have access to early childhood programs. - 50% of all eligible migratory children ages 3-5 participated in MEP or non-MEP preschool programming Statement The percentage of 3–5-year-old migratory children who participate in preschool services needs to increase.	1-1a) Offer/facilitate transportation. 1-1b) Advocate/refer families to enroll in preschool programs. 1-1c) Provide training to preschool providers on cultural proficiency.
1-2) We are concerned that migratory children ages 3-5 who are <u>not enrolled</u> in a preschool program are not receiving MEP instructional services.	2022-23 MIS2000	Indicators - 34% of migratory children ages 3-5 received MEP instructional services (30% PFS) - 16% participated in non-MEP preschool programming (9% PFS) Statement The percentage of migratory children ages 3-5 receiving MEP instructional services needs to increase.	1-2a) Provide home-based/virtual preschool services and materials and technology. 1-2b) Offer migrant-funded preschool programs (regular and summer term). 1-2c) Partner with local preschools to advocate for migratory children.
1-3) We are concerned that migratory families may not be aware of how to support school readiness, how to	2023 Parent Needs Assessment (NA) Survey	Indicator 19% of parents responding indicated their children need preschool programs	1-3a) Help and support parents navigate the U.S. school system by providing information, resources, and materials for

Goal Area 2: ELA and Mathematics

Concern Statement	Data Source	Need Indicator/ Need Statement	Prioritized Solutions for the SDP
2-1) We are concerned that migratory students are not receiving the instructional services they need to succeed in ELA and math.	2022-23 MIS2000	<p>Indicators</p> <ul style="list-style-type: none"> - 39% of eligible migratory students received MEP instructional services - 28% of eligible migratory students received ELA MEP instructional services and 26% received MEP math instructional services - 30% of PFS migratory children received MEP ELA instruction and 28% received MEP math instruction <p>Statements</p> <p>The percentage of eligible migratory students receiving needs-based ELA and math instructional services from the MEP needs to increase.</p>	<p>2-1a) Provide extended learning opportunities specifically in ELA and math.</p> <p>2-1b) Coordinate/provide in-person, online, targeted instructional services in ELA and math.</p> <p>2-1c) Intentionally assign staff to provide instructional services.</p> <p>2-1d) Provide PD in the area of evidence-based strategies/programs that staff can utilize when providing supplemental instructional services.</p> <p>2-1e) Increase staff capacity to utilize data to deliver instructional services.</p> <p>2-1f) Coordinate with schools.</p> <p>2-1g) Coordinate EL support and programming.</p> <p>2-1h) Utilize EL strategies when providing services.</p>
2-2) We are concerned that migratory students are not performing at the same level as their non-migratory peers on State ELA and math assessments.	2022-23 NSCAS ELA and Math results	<p>Indicators</p> <ul style="list-style-type: none"> - 17% of migratory students (13% PFS) were proficient in ELA on the NSCAS compared to 46% of non-migratory students - 33% of migratory students were proficient in math on the NSCAS (23% PFS) compared to 61% of non-migratory students <p>Statement</p> <p>The percentage of migratory students scoring proficient on State ELA and math assessments need to increase (29 percentage points in ELA and 28 percentage points in math).</p>	<p>2-2a) Use NSCAS data to identify areas of growth and to provide instructional services.</p> <p>2-2b) Provide migratory students with test-taking strategies and skill training.</p> <p>2-2c) Provide fundamental literacy and math skills instruction and resources.</p> <p>2-2d) Collaborate with districts to obtain assessment results for migratory students.</p>

Goal Area 3: High School Graduation

Concern Statement	Data Source	Need Indicator/ Need Statement	Prioritized Solutions for the SDP
3-1) We are concerned that migratory secondary aged students have unmet instructional service needs.	2022-23 CSPR Data 2023 Family, Student, Staff NA Survey Results	<u>Indicators</u> <ul style="list-style-type: none"> - 33% of migratory students in grades 9-12 received MEP instructional services - 64% of parents surveyed indicated that their children needed assistance with reading and 56% math - 79% of staff surveyed reported that students need reading help and 68% reported students need help with math - 55% of students surveyed reported a need for English language support <u>Statement</u> The percentage of migratory students in grades 9-12 receiving MEP instructional services needs to increase.	3-1a) Assign students according to need (prioritize PFS and at-risk students) to a staff member that can serve as a mentor and provide academic support (e.g., check grades, partner with school staff). 3-1b) Offer supplemental instructional programs to meet student needs such as after school programs, summer programs/services, and tutors. 3-1c) Identify options for earning core credit (e.g., PASS, online programs).
3-2) We are concerned that migratory students may not be on track to receive credit in Algebra I and/or to obtain the other necessary math credits for high school graduation.	2022-23 MIS2000 2022-23 CSPR Data	<u>Indicators</u> <ul style="list-style-type: none"> - 37% of 10th grade migratory students received full credit for Algebra I or a higher math course prior to entering 11th grade in 2023-24 (two percentage points short of the national target-39%) - 11% of migratory students in grades 9-12 received instructional services in math <u>Statements</u> <ul style="list-style-type: none"> - The percentage of migratory students receiving Algebra I credit needs to increase. - The percentage of migratory students in grades 9-12 receiving instructional services in math needs to increase. 	3-2a) Designate a staff member for each migratory student that can serve as a mentor to provide academic support (e.g., check grades, attendance, partner with school staff). 3-2b) Offer supplemental instructional materials and programs to meet student needs (e.g., instructional resources/interventions focused on foundational math skills, after school programs, summer programs/services, tutors, math camp and connections to careers, cross-curricular topics). 3-2c) Partner with student, parent/guardian, and school staff to develop a plan and implement supports based on student needs to be on track for Algebra I credit. 3-2d) Match migratory students with appropriate peers that are strong in math, coordinate with school staff or within the MEP project. 3-2e) Partner with community organizations and higher education (e.g., certificates, internships). 3-2f) Provide workshops for students and parents (evenings

			represented by migratory families. 3.4g) Provide workshops for students and parents (evenings and weekends), FACE meetings, State Family and Student Conference. 3.4h) Partner with community organizations and higher education (e.g., certificates, internships).

Goal Area 4: Services to OSY

Concern Statement	Data Source	Need Indicator/ Need Statement	Prioritized Solutions for the SDP
4-1) We are concerned that migratory OSY have unmet instructional service needs due to lack of engagement (e.g., work schedule, motivation, available time).	2022-23 CSPR Data NAC Expert Opinion	Indicator - 24% of migratory OSY received MEP instructional services - The experts on the NAC report that migratory OSY lack engagement for instructional services due to a variety of conflicting priorities. Statement The percentage of migratory OSY receiving MEP instructional services needs to increase.	4-1a) Assign OSY to a staff member to serve as a mentor and provide academic support. 4-1b) Partner with community agencies (e.g., GED, higher education, adult education, career and personal growth). 4-1c) Identify and use iSOSY (Instructional Services for Out-of-School and Secondary Youth) CIG resources to address OSY needs.
4-2) We are concerned that migratory OSY lack knowledge of education and career options.	2023 Student/OSY NA Survey	Indicator - 76% of OSY surveyed indicated a need for information about options after high school - 42% of OSY surveyed indicated a need for learning about career options Statement The percentage of migratory OSY receiving information about education and career options needs to increase.	4-2a) Assign a staff member to create or review a plan for opportunities. 4-2b) Provide continuing education, career, and life goal setting. 4-2c) Create personal learning plans for OSY. 4-1d) Provide OSY with a career interest survey and connect them to high schools (re-engage.)

Goal Area 5: Non-Instructional Support Services

Concern Statement	Data Source	Need Indicator/ Need Statement	Prioritized Solutions for the SDP
5-1) We are concerned that migratory children, students, and OSY have unmet support service needs that impact attendance and academic achievement.	2022-23 CSPR Data 2023 Parent and Staff NA Surveys	Indicators - 75% of eligible migratory children/youth received MEP support services (73% 3-5-year-olds, 78% students in grades K-8, 76% students in grades 9-12, 71% OSY)	5-1a) Coordinate/provide migratory students with appropriate needs-based support services (e.g., health and nutrition, educational supplies, interpretation, transportation, access to technology) to increase

GOAL 1.0: School Readiness

Concern Statements: We are concerned that: 1-1) migratory parents do not have the knowledge or economic access (including transportation) to healthcare and dental care and other basic needs; 1-2) migratory families may not be aware of how to support school readiness, how to enroll their child, or have access to resources (educational materials) to support their preschool children in a manner consistent with school expectations, developmental stages, and academic success as well as overcoming barriers, such as transportation, schedules, etc.; 1-3) migratory preschoolers, especially English learners (ELs), do not have access to free, quality early childhood programs (i.e., transportation, long waitlist, availability, schedules, lack of understanding of developmental stages) and therefore do not have the school readiness skills to be prepared for kindergarten and beyond; 1-4) migratory children ages 3-5 who are not enrolled in a preschool program are not receiving MEP instructional services; 1-5) MEP and school staff lack the skills and strategies to support the unique educational needs, cultural identity, language, and life experiences of migratory students and their families; and 1-6) migratory parents may need additional support/training in how to access technology and appropriate use of technology to participate in virtual early childhood education programming.

GOAL 2.0: ELA and Mathematics

Concern Statements: We are concerned that: 2-1) migratory students (especially English learners [ELs] and students with priority for services [PFS]) are not performing at the same level as their non-migratory peers on State ELA and math assessments; 2-2) migratory students are not receiving the instructional services they need (including in-school programming and extended programming) to succeed in ELA and math, especially Algebra, as indicated by assessment scores and course grades; 2-3) migratory students have unmet support service needs (i.e., basic necessities, medical/dental, mental health, transportation) that impact attendance and academic achievement in ELA and math; 2-4) many migratory families lack knowledge, resources, and/or access to academic support to help their children develop ELA and math skills (i.e., training, materials, literature, technology, community services); 2-5) MEP and school staff lack the skills and strategies to support the unique educational needs, cultural identity, language, and life experiences of migratory students and their families; and 2-6) the COVID-19 pandemic is leading to further challenges for migratory students by having them attend remote learning and complete their schoolwork.

<ul style="list-style-type: none"> -Coordinate/provide evidence-based supplemental targeted ELA, math support (e.g., in-school and math support, programs on days when school is not in session, before/after school tutoring, home-based instruction). (2.2b in the CNA) -Coordinate with local instructional providers to determine migratory student learning needs or areas of growth. (2.1g in the CNA) -Provide supplemental programming (e.g., before/ after school programs, summer school/services). (2.2d in the CNA) -Increase supplemental interventions to help gain content that was unfinished learning during the pandemic closure. (2.6c in the CNA) -Increase outreach support for migratory students who are participating in remote learning.
