

The purpose of this brochure is to answer commonly asked questions and to provide parents with an understanding of how students with disabilities are included in State-wide accountability systems.

The Reauthorizations of the **Individuals with Disabilities Education Act (IDEA)** of 1997 and 2004 require that all students with disabilities participate in statewide accountability systems. The reauthorization of **Title I legislation (Public Law 11495), Every Student Succeeds Act (ESSA)**, further reinforces the need to include all students in accountability systems. Nebraska complies with IDEA and ESSA requirements, which mandates standards-based reform and greater accountability for all students. Therefore, all students must be included in statewide assessments and be provided appropriate and necessary accommodations.

What is the purpose of Statewide Assessments?

State assessments are given for the purpose of measuring school accountability. Individual test results provide information to parents and teachers about what the child knows. State assessments are aligned with the Nebraska Academic Standards.

Who needs to participate in Statewide Assessments?

All students must be included. Public Law 105-17, the Individuals with Disabilities Education Act Amendments (IDEA '97), requires that each state establish goals for the performance of students with

disabilities that are consistent, to the maximum extent appropriate, with goals and standards for all students established by each state.

What assessments are included?

Nebraska State Assessments are required in grades 3, 4, 5, 6, 7, 8, & high school (third year cohort) for Math and ELA, and grades 5, 8, & high school (third year cohort) for Science. All Nebraska Schools are required to administer the statewide assessment at these grade levels on an annual basis.

The Nebraska Student-Centered Assessment System (NSCAS) is administered to students with standard procedures. In addition, the state assessment system includes an Alternate Assessment for students with a most significant cognitive disability in which the NSCAS or ACT would not measure what the student is being taught even with the appropriate accommodations.

Nebraska provides the following options for students with a disability to participation in State Assessment. These are:

1. **The NSCAS in the standard manner; or**
2. **The NSCAS with approved accommodations; or**
3. **The NSCAS Alternate Assessment. (Grades 3-8 and high school, third year cohort)**

Who decides how a student with disabilities is involved in state assessments?

The **IEP team** decides. Discussion about state assessments must take place at your child's IEP meeting with you, the parent(s), present. The team must document why one assessment option is appropriate and why others are not. Decisions must be documented in the IEP regarding accommodations the student needs for success in the classroom as well as during assessment.

How does the IEP team make the decisions on which assessment option is right for the student?

Several questions need to be asked to make an informed decision about what assessment needs to be given and what accommodations need to be provided for a student with disabilities to successfully demonstrate what he/she knows and is able to do.

The IEP Team Decision Making Flow Chart document is available at: [IEP-Team-Decision-Making-Flow-Chart-Alternate-Assessment-11-21.pdf \(ne.gov\)](https://www.doe.ne.gov/IEP-Team-Decision-Making-Flow-Chart-Alternate-Assessment-11-21.pdf)

Your child's IEP manager is encouraged to use this document at the IEP planning meeting to assist the team in making the most informed decisions about state assessment options.

What is the Nebraska Alternate Assessment?

The **NSCAS -AAS** is intended for students with *the most significant cognitive disabilities* who will be assessed against alternate achievement standards.

What are the eligibility guidelines for participation in a Nebraska Alternate Assessment?

[AAS Guiding Questions for Alternate Assessment Participation 2024.pdf \(ne.gov\)](https://www.doe.ne.gov/AAS-Guiding-Questions-for-Alternate-Assessment-Participation-2024.pdf) and [AAS Determining Eligibility Worksheet 2024.pdf \(ne.gov\)](https://www.doe.ne.gov/AAS-Determining-Eligibility-Worksheet-2024.pdf)

If the student's cognitive ability and adaptive behavior prevent completion of part or all of the general education curriculum; **AND**

The student requires extensive, frequent, and individualized instruction in multiple settings in order to maintain or generalize skills necessary to function in school, at home, in the community, and during recreation/leisure and vocational activities; **AND**

The student's curriculum is so individualized that the general assessment will not reflect what the student is being taught, the student may participate in the NCSAS-AAS.

What accommodations are allowed with the statewide assessment?

The Nebraska Statewide Assessment defines specific accommodations to be used during test administration. The approved accommodations document can be found at:

[CCSSO Accessibility Manual:\(ne.gov\)](https://www.education.ne.gov/assessment/AccessibilityManual.pdf)
[Accessibility-short-form-2024.pdf \(ne.gov\)](https://www.education.ne.gov/assessment/Accessibility-short-form-2024.pdf)

If an accommodation is documented in a student's IEP and is used on a regular basis to support the student's education, and is an allowable accommodation, it should be used when assessing that child. This is to allow equal access to achievement measurements not to provide an advantage for that student.

Who can I contact if I have more questions about the Nebraska Statewide Assessment system and or allowable accommodations?

Nebraska Department of Education
