10% of school days missed makes a child **chronically absent**

If your child **consistently** misses just two days of school per month—for any reason (**excused or unexcused**) absences will contribute to a chronic absenteeism designation over the course of the school year.

Your Child's Missed Days

Keep track by adding date and reason for absences in the circles.

Contact your child's school to discuss challenges your child is experiencing.

Showing up matters for learning!
Students who attend #SchoolEveryDay have more opportunities to receive academic support, build relationships, and stay connected to learning. **Don't miss out!**
